Product liability, application considerations

If the proper selection and application of Habasit products are NOT recommended by an authorized Habasit sales specialist, the selection and application of Habasit products, including the related area of product safety, are the responsibility of the customer.

All indications / information are recommendations and believed to be reliable, but no representations, guarantees, or warranties of any kind are made as to their accuracy or suitability for particular applications. The data provided herein are based on laboratory work with small-scale test equipment, running at standard conditions, and do not necessarily match product performance in industrial use. New knowledge and experiences can lead to modifications and changes within a short time without prior notice.

BECAUSE CONDITIONS OF USE ARE OUTSIDE OF HABASIT'S AND ITS AFFILIATED COMPANIES CONTROL, WE CANNOT ASSUME ANY LIABILITY CONCERNING THE SUITABILITY AND PROCESS ABILITY OF THE PRODUCTS MENTIONED HEREIN. THIS ALSO APPLIES TO PROCESS RESULTS / OUTPUT / MANUFACTURING GOODS AS WELL AS TO POSSIBLE DEFECTS, DAMAGES, CONSEQUENTIAL DAMAGES, AND FURTHER-REACHING CONSEQUENCES.

Innovation is a key word at Habasit

Habasit has developed an extensive variety of solutions that allow customers to choose the best product for their application.

Special focus of all developments is on the increasing hygiene standards within the food industry. Habasit offers products that comply with HACCP principles and guarantee trouble-free and safe food production. Beyond this, to provide additional safety, Habasit has recently introduced unique products such as **HyGUARD®** and **HabaGUARD®** conveyor belts containing antimicrobial additives, **Cleanline®** food belts coated with a modified polyolefine and **HySAN®**, high oil and fat resistant PVC coated belts.

Special features offer the **TPU non-fray** and **frayless belts**, which minimizes fibre contamination due to their specific fabric construction. Another new development is the high grade **Silicone** coated product range.

A Habasit speciality are the seamless produced **Grabber®** Vertical-Form-Fill-Seal belt and folder-gluer belts for reliable friction-feed applications.

Additional products like **HabasitLINK®** and **KVP** plastic modular belts, **HabaCHAIN®** plastic chains, **HabaSYNC®** timing belts and accessories like cleats, edge-sealing profiles and side-walls complete the range.

Habasit is the only belt supplier to manufacture and offer the full package of fabric based and plastic modular belts.

More than 60 years of experience

With a comprehensive global network, Habasit is able to respond to any request that you may have with nothing less than an outstanding belting solution of highest quality, tailored to your specific needs.

Focus on bakery and biscuit processing

Whether handling dough, cooling baked products, molding, cutting or packaging, Habasit offers a complete product range for the bakery, biscuit and snack processing industry.

This includes all kind of fabric belts and modular belts with different surface finish.

Further Information about the Bakery Industry

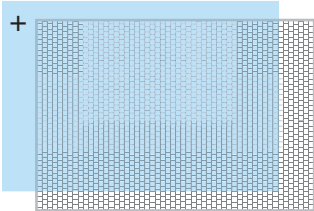

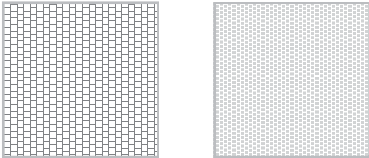

Features and benefits

Fabric based belts

Fabric surface

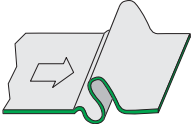

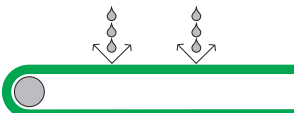

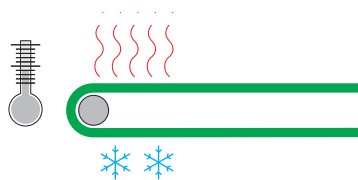

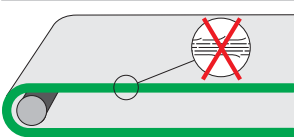

Food conveyor belts with fabric surfaces are often used in bakery applications. Depending on the consistency of a respective kind of dough, Habasit is offering different product constructions, including belts made from felt-like Non-Woven material (PET-fibres, needled and buffed construction).

	Features	Benefits
	<ul style="list-style-type: none"> • High strength 	<ul style="list-style-type: none"> → Good wear/abrasion resistance → Long service life
	<ul style="list-style-type: none"> • Dimension stability in water (PET fabrics) 	<ul style="list-style-type: none"> → Water absorption, no elongation → Excellent tracking
	<ul style="list-style-type: none"> • Impregnated fabric 	<ul style="list-style-type: none"> → Less soiling → Reduced cleaning time/cost → Hygiene support
	<ul style="list-style-type: none"> • Rough or fine surface structure 	<ul style="list-style-type: none"> → Good release of raw dough → Best selection for different applications
	<ul style="list-style-type: none"> • Mixed yarns 	<ul style="list-style-type: none"> → Different solutions available depending on consistency of dough (oil, fat, moisture)

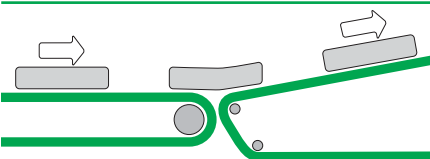

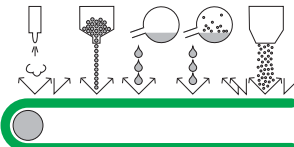

TPU coating

TPU food conveyor belts combine many features that are supporting reliable and hygienic production processes. Habasit offers TPU belts in different constructions, different colors and different surface finishes.

	Features	Benefits
	<ul style="list-style-type: none"> • Longitudinal flexibility 	<ul style="list-style-type: none"> → Smallest pulley diameters → Smooth and trouble free product transfer
	<ul style="list-style-type: none"> • Calendered coating 	<ul style="list-style-type: none"> → Closed, most homogeneous surfaces → Reduced soiling of conveyor belts → Good release properties → Increased hygiene → Wide range of blue TPU belts
	<ul style="list-style-type: none"> • Oil and fat resistance 	<ul style="list-style-type: none"> → Reliable transport → Long service life
	<ul style="list-style-type: none"> • Temperature resistance 	<ul style="list-style-type: none"> → Usable in low temperature environment and warm conditions without changing its features → High temperature belts product up to 100 °C available
	<ul style="list-style-type: none"> • Non-fray and frayless fabrics 	<ul style="list-style-type: none"> → Reduced risk of product contamination → Increased service life

Habilene® coating (Thermoplastic polyolefine = Habilene®)

Habilene® (a Habasit modified Polyolefine) is the newest development of Habasit which provides unique features among food conveyor belts.

	Features	Benefits
	<ul style="list-style-type: none"> • Excellent release properties 	<ul style="list-style-type: none"> → Excellent release of sticky products → Less soiling → Increased hygiene and product quality → Reduction of waste
	<ul style="list-style-type: none"> • Very good chemical resistance 	<ul style="list-style-type: none"> → Cleaning with aggressive chemicals, such as chlorine, possible → No surface damage due to cleaning agents → Longer service life
	<ul style="list-style-type: none"> • Environmental friendly product construction 	<ul style="list-style-type: none"> → Belts contain no glues or toxic chemicals → HACCP support, reduced risk of contamination → Lower belt disposal costs

Features and benefits

Fabric based belts

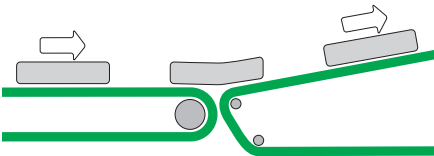

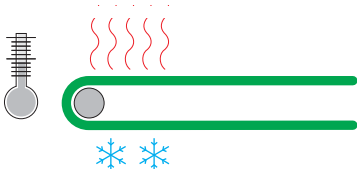

PVC coating

PVC is widely used in food applications and is often a cost saving solution.

	Features	Benefits
	<ul style="list-style-type: none"> • General conveying 	<ul style="list-style-type: none"> → Products for a wide variety of applications available → Cost saving solution
	<ul style="list-style-type: none"> • Chemical resistance 	<ul style="list-style-type: none"> → Cleaning with chlorine containing detergents possible
	<ul style="list-style-type: none"> • HySAN® oil and fat resistant PVC 	<ul style="list-style-type: none"> → Less extraction of plastizers → Long service life → Improved abrasion resistance → Improved temperature resistance

High grade Silicone coating

New high duty food grade Silicone coating for demanding applications.

	Features	Benefits
	<ul style="list-style-type: none"> • Vulcanized coating 	<ul style="list-style-type: none"> → Excellent abrasion resistance → Extended belt life → Smooth and textile structured surfaces → Super adhesive surface for steep incline/ decline
	<ul style="list-style-type: none"> • Easy release properties 	<ul style="list-style-type: none"> → Reliable transfer of sticky goods → Waste reduction → Hygiene support
	<ul style="list-style-type: none"> • Elevated temperature resistance 	<ul style="list-style-type: none"> → Temperature resistance up to 150°C or 180°C depending on belt construction → Extended belt life → Wider area of application

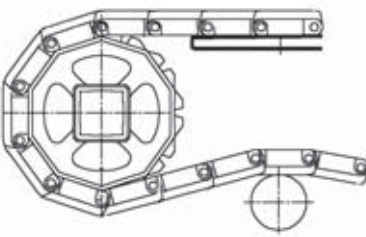

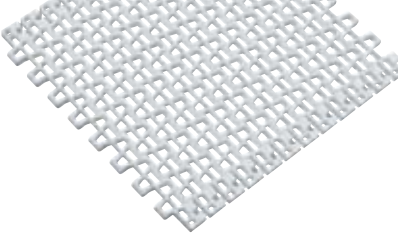

Features and benefits

Modular belts

Plastic modular belts

Based on our comprehensive experience and our leadership position in fabric belting, Habasit has developed the HabasitLINK® modular belts range. Completely ejector mark free surfaces, rounded edges, smooth designs stand for state-of-the-art hygienic modular belting. This range was recently extended by integrating the KVP plastic modular belts, the pioneers in plastic modular spiral belting.

	Features	Benefits
	<ul style="list-style-type: none"> • Positive drive and tracking by positively engaged belt • Guided belt alignment 	<ul style="list-style-type: none"> → No need of tensioning devices → Reliable tracking → Elimination of belt edge damage → Simple system design
	<ul style="list-style-type: none"> • Various open area belt styles • Smooth rounded design 	<ul style="list-style-type: none"> → Uniform and fast cooling → Air and water permeability → Easy release of sticky goods → Support of cleaning and sanitation measures → Higher productivity/throughput
	<ul style="list-style-type: none"> • Radius and straight transport • Strong design 	<ul style="list-style-type: none"> → Longer runs without transfers → Less disorientation → Less product damage → KVP Spiral know-how enables process improvements
<p> PP = Polypropylene PE = Polyethylene POM/AC = Polyoxymethylene / Acetal PA = Polyamide HT and ST = special Materials </p>	<ul style="list-style-type: none"> • Large variety of plastic materials available • High temperature materials available up to 240 °C 	<ul style="list-style-type: none"> → Adaptation to process/application → Large temperature range suitable (pre oven, past oven applications) → PE = easy release → PE, PP = excellent chemical resistance
	<ul style="list-style-type: none"> • Rough and rugged application suitable (frozen food) 	<ul style="list-style-type: none"> → Heavy duty rod and belt material available → High lateral stiffness (e.g. for wide elevators)

Features and benefits

Plastic Slat and Flex Chains

Plastic chains

HabaCHAIN3 Pt is a high-quality range of new slat- and flat chain products from Habasit. HabaCHAIN® products are suitable for a wide range of applications in beverage, bakeries, packaging and many other industries.

	Features	Benefits
	<ul style="list-style-type: none"> • Positive drive and tracking • Various belt styles available • Wear resistance • Less noise generation • Precision of molds 	<p>→ Suitable for various food products and packages</p>
	<ul style="list-style-type: none"> • Radius and straight transport • Robust design • Wear resistance • Less noise generation • Precision of molds 	<p>→ In general for leight-weight transport of goods</p>
	<ul style="list-style-type: none"> • Suitable for linear and curve conveying on aluminum modular structure • Grip Top types available • Wear resistance • Less noise generation • Precision of molds 	<p>→ Retrofit on existing systems possible</p>

Offering a comprehensive range of services is part of Habasit's belting solutions approach. We are committed partners of our customers, and we consider the sharing of knowledge and providing of support as an essential task. And this we offer:

Consulting and technical support

Habasit offers the best consulting and technical support on the belting market for fabric belts and plastic modular belts based on the experience and competence acquired in more than 60 years.

Belt selection and calculation

For our customers we select and calculate the most suitable belt for a specific application. However, customers may do it themselves thanks to the state-of-the-art Habasit selection and calculation programs "SeleCalc". For ordering these programs free of charge simply call the nearest Habasit partner or contact: info@habasit.com

CONVEY-SeleCalc = Fabric conveyor belt selection and calculation

LINK-SeleCalc = Plastic modular belt selection and calculation

POWER-SeleCalc = Power transmission belt selection and calculation

Fabrication or installation

We join fabric belts or install modular belts at our locations or on-site directly on the machine or on the system.

Shortest lead times

Habasit AG owns 27 Affiliated Companies located in North America, Europe, Japan and Asia, each with own inventory, fabrication, assembling and service facilities. Together with our country managers, representative offices and a large number of qualified distributors we are in a position to react quickly, competently and reliably to customers' demands.

Installing service at hand

We are where the customers are, and our committed staff is always available for their specific needs. We offer on-site installation on an international scale.

Testing at customer's site

We are testing process functionality, alternative products, and variations of fabric belts or modular belts at the customer's site.

Legal and conformity check

We are supporting our customers with respect to declaration issues, conformity issues, conformance with national laws/authorities like FDA, USDA, EU, etc.

Process optimization proposals

We analyze processes together with the customer and submit proposals for optimization, e.g. added value for the machinery/process output, output increase.

Belt repair

We have developed sophisticated repair methods and equipments with proven effectiveness.

Special belt fabrication

We offer special fabrications, such as longitudinal joining, edge sealing, profile welding, guide profiles welding, hole punching, curve conveyor layout/cutting preparation, etc.

Joining tools and auxiliary equipment

Fabric belt joining (fabrication) tools and handling/process auxiliary equipment are available.

Education / Training

Habasit organizes programs and provides supporting tools to ensure optimal selection and use of our products and prolonging their life cycle. Fabrication, installing, assembling, maintenance and belt repair training is carried through at Habasit's or at customer's site.

Specific application knowledge transfer

Habasit provides application specific knowledge transfer for process specific issues to allow for optimal use of our products and to optimize machinery and processes (e.g. cleaning, hygiene/sanitation).

Customized services

Designing the future "Partner in Design"

Habasit believes in partnership. For joint design developments our engineering team is looking for strong cooperation with the customer's engineering team, preferably at a very early stage. We offer this cooperation to large customers. Co-design: We work together for success.

Testing for customer

We offer our R&D expertise, laboratory and test equipment for the customer's specific process needs like mechanical endurance testing, chemical or thermal testing.

Belt monitoring / inspection

A customizing Habasit service that includes maintenance, regular belt monitoring reports, regular review meetings with the responsible for process/production at customer's site.

Customized service agreements

According to the specific needs of our customers we offer customized services like inventory, emergency service, belt exchange services or order/re-order management.

Project management

We are experienced partners for belting project co-ordination on an international scale for globally operating customers.

At Habasit, we listen to our customers, innovate continuously and deliver reliable solutions to meet your every need.

Customers come first

At Habasit we understand that our success depends on your success. This is why we offer solutions, not just products; partnership, not just sales.

Since our foundation in 1946, Habasit has brought this understanding of customer needs to life every day and for every application. That's why we're the No. 1 in belting today. Worldwide.

Committed to innovation

Habasit is strongly committed to the continuous development of innovative, value-added solutions. Over 3% of our staff are dedicated exclusively to R&D, and our annual investment in this area exceeds 8% of turnover.

Certified for quality

We deliver the highest quality standards not only in our products and solutions, but also in our employees' daily work processes. Habasit AG is certified according to ISO 9001:2000.

Worldwide leading product range

Habasit offers the largest selection of belting, conveying, processing and complementary products in the industry. Our response to any request is nothing less than a specific, tailor-made solution.

A selection of our product ranges:

HabaFLOW®
Fabric based conveyor and processing belts

HabasitLINK®/KVP
Plastic modular belts

HabaDRIVE®
Power transmission belts

HabaSYNC®
Timing belts

HabaCHAIN®
Chains (slat and conveyor chains)

HabiPLAST®
Profiles
Guides
Wear strips

Machine tapes

Seamless belts

Round belts

Fabrication tools (joining tools)

Gear reducers
Gearmotors
Motion control

Electric motors

Worldwide support

Our extensive organization is ready to support you anywhere in the world. Engineering and emergency assistance, quotes and order status are just a phone call away. Wherever you are. Whenever you need us.
